## RURAL DEVELOPMENT SECTOR PLAN INPUTS

---

The Lejweleputswa District Rural Development plan has been endorsed and signed by the District Executive Mayor on 31/10/2017. This portion of the document is the Department of Rural Development and Land Reform's Sector plan to the Integrated Development Plan of the Matjhabeng Local Municipality. This DRDP fulfil the requirements vested in DRDLR by SPLUMA sec 7(e)(ii) and sec 12(2)(a) of the Spatial Planning and Land Use Management Act, 16 of 2013 (see below) where it is required that we support Municipal Planning:

The following principles apply to spatial planning, land development and land use management: *"Sec 7 (e) (ii) all government departments must provide their sector inputs and comply with any other prescribed requirements during the preparation or amendment of spatial development frameworks;"*

*"Sec 12 (2) (a) The national government, a provincial government and a municipality must participate in the spatial planning and land use management processes that impact on each other to ensure that the plans and programmes are coordinated, consistent and in harmony with each other."*

This document forms part of the current Integrated Development Plan cycle for the 2018/2019 financial year and serves as a sector plan for both the Integrated Development Plan as well as the Spatial Development Framework as approved by the Council of Matjhabeng Local Municipality.

## 1.1. IMPLEMENTATION MATRIX

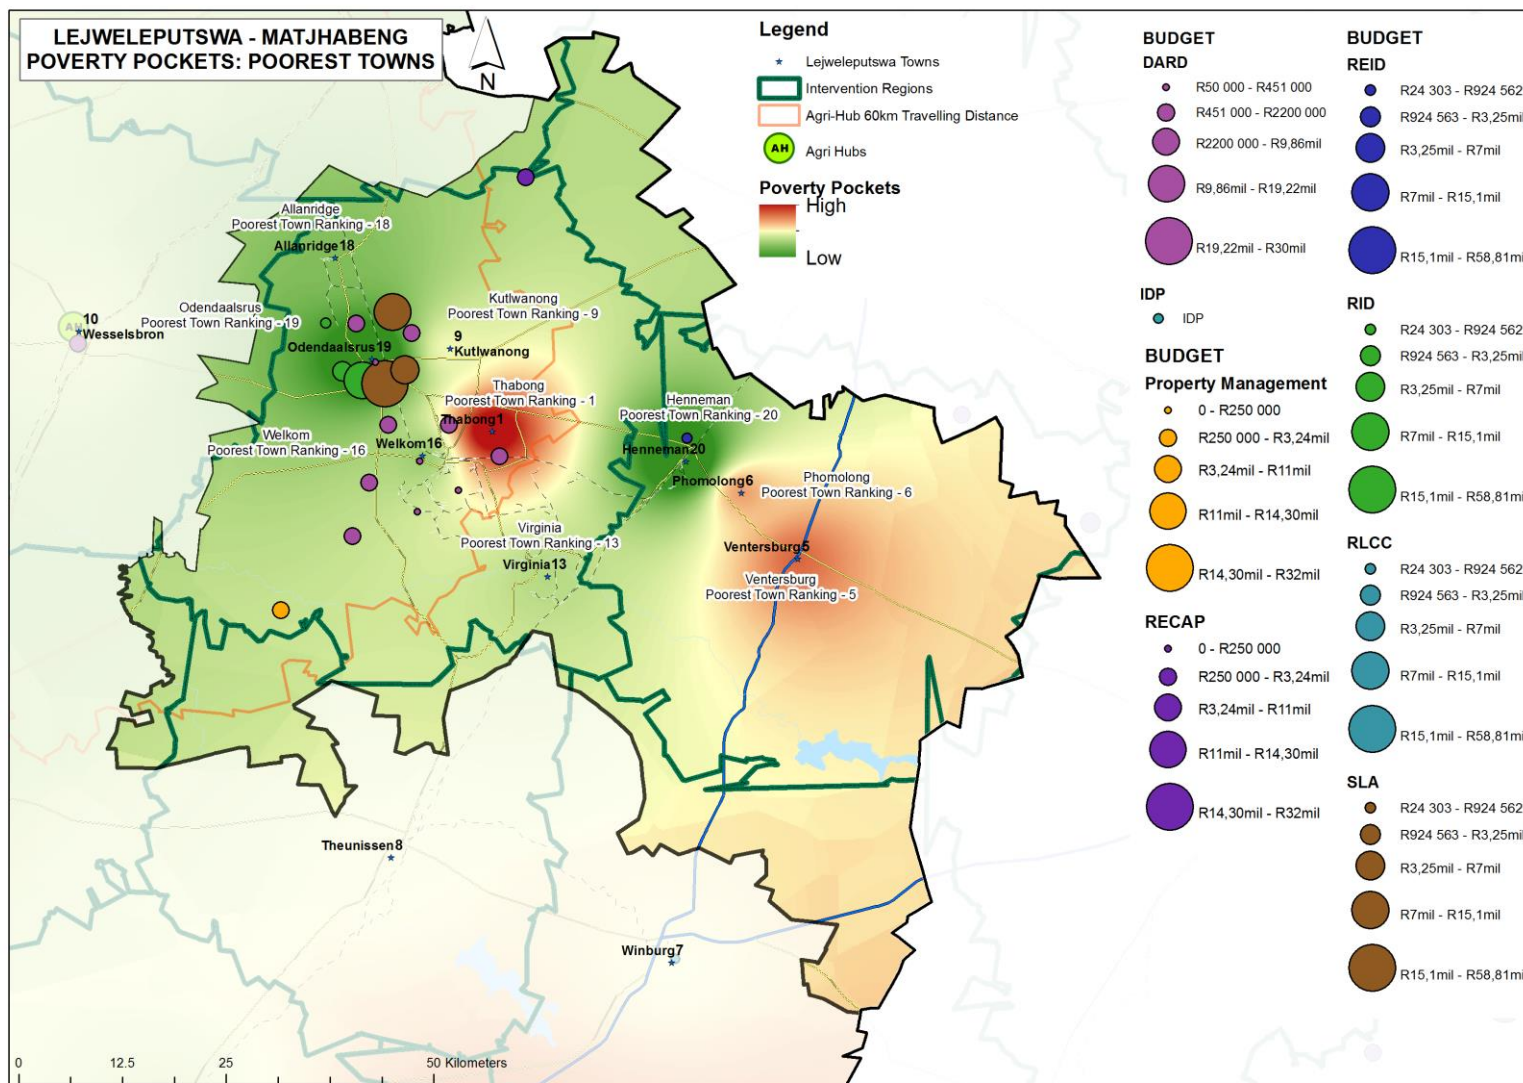

The following Table presents the projects based in the local municipality by category, type, objectives, priority, key stakeholders as well as rural development alignment per project proposed for the broader Lejweleputswa Agri-park development:

## 2. TSWELOPELE LOCAL MUNICIPAL PROPOSED PROJECTS IN FOCUS REGION 3, 4, 9 & 10

The following key projects are proposed within the Matjhabeng Local Municipality to unlock the economic potential of the rural areas as well as creating better linkages between urban and rural areas. Through some of the key projects poverty will be alleviated and access to markets will be more accessible for the rural poor.

### 2.1 FOCUS REGIONS

The proposed projects have been clustered into the functional region groups and each focus area identified has particular projects linked to it which combines with the main commodities of that particular Functional Region.

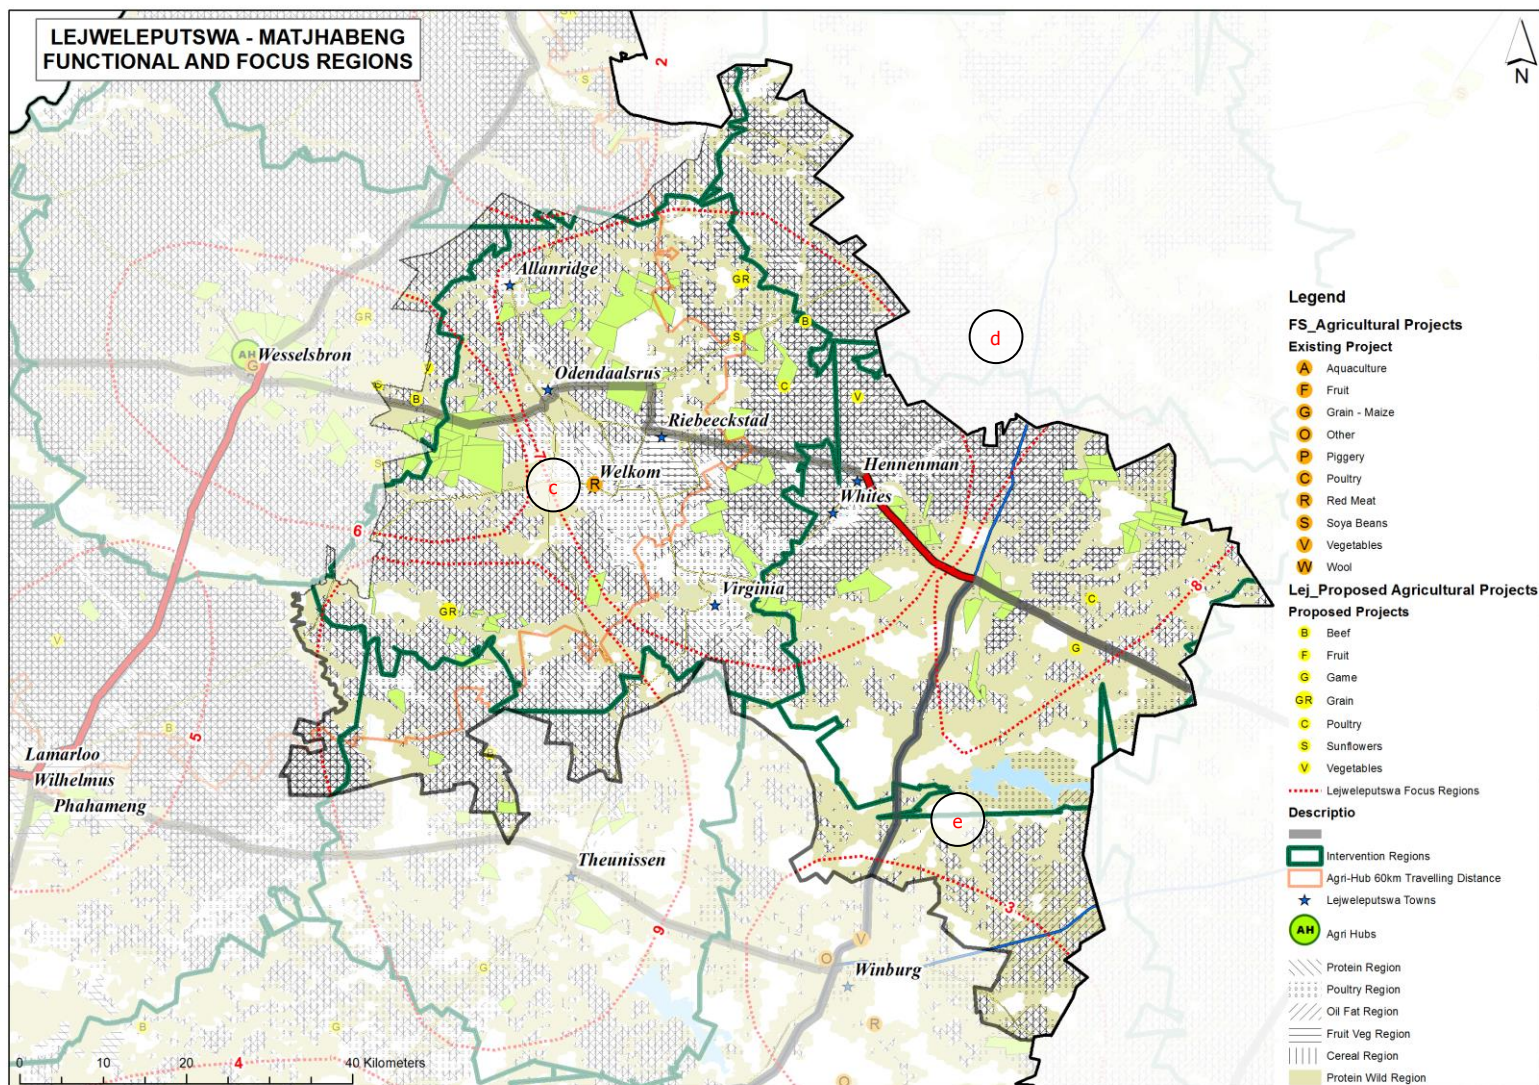

There are twelve (12) main focus regions within the Lejweleputswa District which are located around the following important towns or nodes in Matjhabeng Local Municipality falls within Focus Region 7 and 8 of the Lejweleputswa District Rural Development Plan:

Table 3: Proposed Projects

## 2.2 PROJECTS FOR FOCUS REGION 7 & 8

**Each focus region is briefly summarised according to the following key parameters:**

- Crop suitability and yield potential per farm owned by DRDLR
- Grazing and livestock capacity per farm is presented;
- Potential arable and irrigation land is assessed;

- Functional areas rating per farm portion (where information could be obtained from functional Region analysis) and
- Spatial representation of key projects, catchment areas and routes to improve access towards markets. Proposals include provision for Agri-Hub, Farming Production Supporting Units and other Towns. Collection points have been proposed at towns where limited potential exist to ensure accessibility towards all towns within the District.
