REQUEST FOR SOLAR GEYSER SYSTEM IN ESKOM DISTRIBUTION AREAS IN THE MATJHABENG LOCAL MUNICIPALITIES (MLM).

The Mayoral Executive Committee (MEC) resolution with reference no. MEC 22/2017 of 9th March 2017 in the above mentioned regard refers.

1. The MEC resolved on 9th March 2017 as follows:
 - a. "5. That provision and installation of solar systems in Hani Park and Thabong should **BE MADE** in the IDP and budgeted".
2. Eskom is therefore kindly requested to assist with the implementation of the above mentioned resolution as the indicated area resides in the Licensed Eskom Electrical Distribution Areas and therefore the MLM cannot apply directly to the Department of Energy (DOE) for the required funding.

3. It is also the kind request that Eskom will consider the provision and installation of Solar Geyser Systems during the implementation of future DOE electrification project in the MLM area.

I trust you will find it in order.

Yours Faithfully

Dear Sir

RE: DECISIONS OF A MEETING HELD ON 1 MARCH 2018

We refer to your letter dated 5 March 2018 which we received on 7 March 2018.

We herewith confirm the following:

1. We have withdrawn our interdict against the occupants of the Remaining Extent of the Farm Mealie Bult No 49, District Welkom ("the Property") which is the land next to the Paballong Village. We, however, reserve our rights to interdict and restrain any person from undertaking any unlawful acts at or in close proximity to the Tshepong Operations or any communities in close proximity thereto including any violence, damage to property, interruption of Harmony's business operations, or interference with any employees, persons or services (such as water supply or electricity).
2. As per your letter, the Matjhabeng Municipality ("the Municipality") has agreed that it will take full responsibility for providing infrastructure (ie. water, electricity and sanitation) to the occupants of the Property, at the Municipality's cost, pending the finalisation of the donation of the Property to the Municipality.
3. Harmony will provide the Municipality with the structural plans as far as is practically possible.
4. Harmony will investigate and consider whether there is further land available for donation subject to our mining activities, safety, health and rehabilitation obligations
