#### A.1. INTRODUCTION AND BACKGROUND

The Directorate SPLUMS Free State has a key output, the objective to ensure that the Rural Development Plans being incorporated into the IDP's. Also to ensure that spatial effect is given to all projects through the SDF process to ensure Development applications do not first require the amendment of the SDF before projects can commence. This is a requirement as contained in the Spatial Planning and Land Use Management Act (Act 16 of 2013) and requires municipal, provincial and national departments to submit input as detailed in the act. This process is new and has not been done practically by any municipality in the Free State before. SPLUMS therefor assist municipalities with developing legal compliant and credible Integrated Development Plans / Spatial Development Frameworks, through capacitating municipal officials in the implementation and inclusion of the District Rural Development Plans as Sector Plans.

The background, overview, functional regions, practical implications and tools to implement the Rural Development Plans into the municipal IDP's amongst other was discussed and demonstrated during this session.

The IDP sessions as conducted by COGTA rotate between District Municipalities and this quarter Xhariep District Municipality played host to the event. Xhariep is one of the 27 priority district municipalities and the only one in the Free State Province. This document contains hyperlinks to the presentations and documents that was presented over the course of the three day workshop.

# A.2. ATTENDANCE SUMMARY

Representatives from all the District, Local and Metropolitan Municipalities were present.

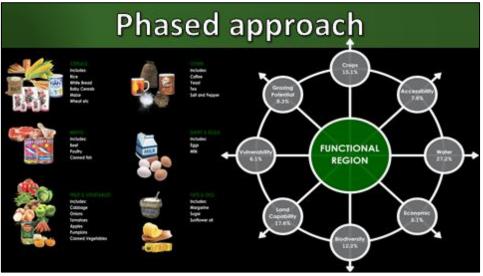

The following Sector Departments were present:

National/Provincial	Department

Provincial	DESTEA
National	Water and Sanitation
Provincial	DARD
National	DRDLR
Provincial	Public Works
Provincial	FDC
Provincial	Human Settlement
Provincial	Education
SOE	Eskom

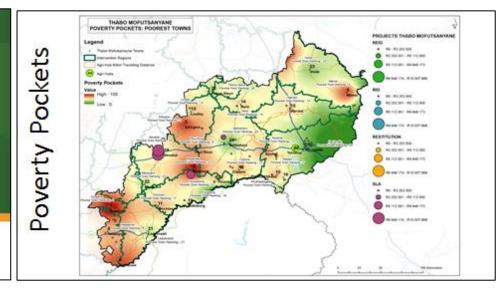

#### A.3. DAY 1 – 21 FEBRUARY 2018

District Rural Development Plans: Functional regions and the cross cutting mandate of DRDLR

Practical Implications of the
District Rural Development Plans with specific focus on the Implementation plan and the input required per LM

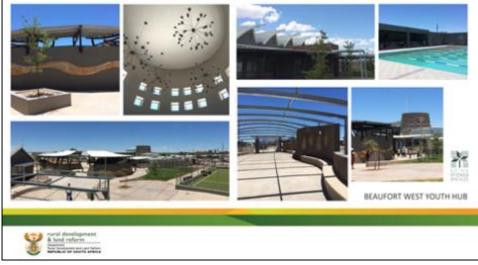

# WESTERN CAPE AGRI-PARK

CERES AGRI-HUB - CAPE WINELANDS DM

On Day 1 of the sessions the following presentations were presented from various officials from the Department of Rural Development and Land Reform. These presentations served the following purpose:

- Set the scene of where Rural Development is and where PSSC FS intend to go. Ensure that the process is seen as a collaborative effort where we honestly seek input from all role players to assist us to carry out our mandate, but at the same time are aligned to the strategy as contained in the Rural Development Plans.
- Differentiate between the Rural Development Plan and the Implementation Plan and what each seek to accomplish.
- To provide a broad overview of the contents of the DRDP documents and how it can be used practically.
- To provide insights into the methodology:
  - Show the link to Agriculture and Commodity regions
  - Food basket
  - Functional regions

Furthermore, the day was concluded by illustrating current projects being done by the department throughout South Africa. The idea was to seek input to identify these types of projects to better support the rural space.

Handover to Municipalities:

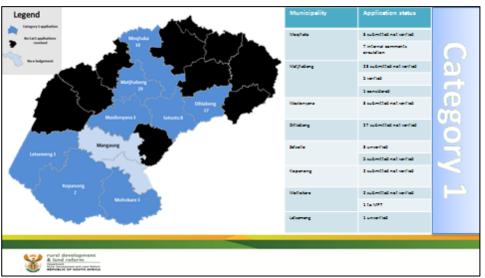

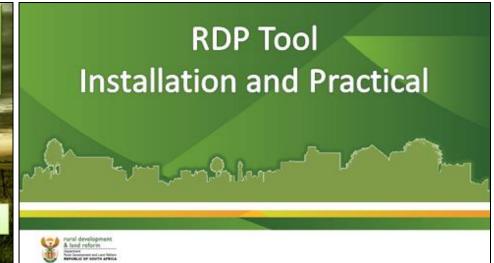

**Environmental Programmes and IDP Priniciples** 

Umesh R. Bahadur

Gariep 22 February 2018

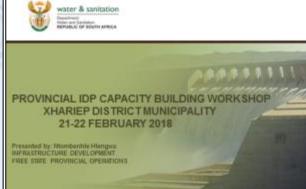

22 February 2018

Prepared by K. Chetty

On Day 2 it was critical to firstly equip the Municipalities with the practical tools in order to incorporate the DRDPs within their Local Municipal IDP/SDF documents. Furthermore, it was important to explain the Spatial Planning and Land Use Management Act 16 of 2013 requirements imposed on all developers, including those from the state. Emphasis was put on the role municipalities play in the development of their space as well as the mechanisms available to create a conducive environment for any development.

The key role that the Spatial Development Framework plays in part of this development was highlighted specifically and how we need to influence all stakeholders to address the transversal rural needs.

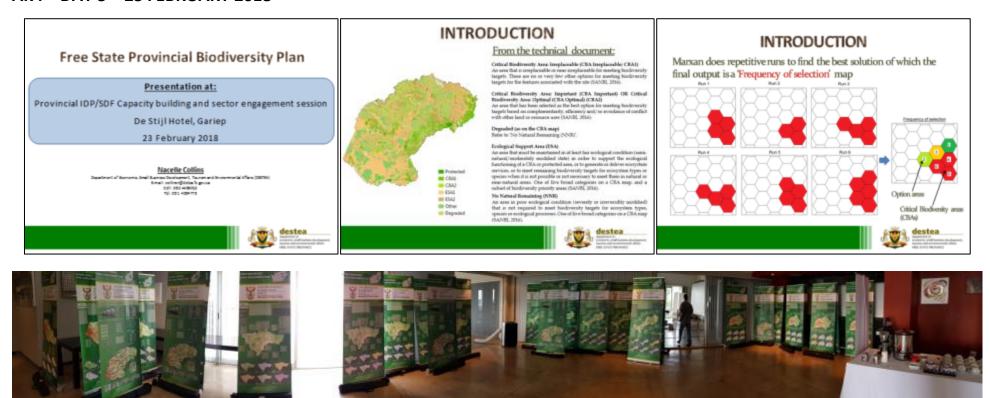

There were also various presentations from other sector departments including DEA and SAWS that was well received by the Local Municipalities.
